

# Camden Central School District: Camden Middle School Operational Plan 2020-2021

---

Each school district must create a building specific Operational Plan which will serve as the local plan for all instructional and non-instructional school activities. The Operational Plan developed for each school district is tailored to the unique needs of each school. Given the dynamic nature of the pandemic, each plan should incorporate enough flexibility to adapt to changing conditions. The templates provided will be used to document both the district and building specific portions of the plan. Areas of the plan that are the same district wide will be completed by the administrator who oversees that area. These plans are intended to focus on professional learning and communications to ensure all stakeholders are fully informed and prepared for the operations of school facilities. These plans will be reviewed by the Oneida County Department of Health, Dr. Matthew McKay, Camden School Physician, and then finally the plan will be approved by the Board of Education. A summary of the approved plans will be communicated on the district's website prior to the reopening of school year. All decision-makers should be mindful that as long as there are cases of COVID-19 in the community, there are no strategies that can completely eliminate transmission risk within a school population. The goal is to keep transmission as low as possible to safely continue school activities. All school activities must be informed by the guidelines associated with each "Phase of Reopening in New York State." These designations signal how counties and/or regions may begin easing some restrictions on school, work, congregate settings, and social interactions: Depending upon the public health conditions in any county in New York State, there will be additional guidance provided by the NYS Department of Education (NYSED) and/or the NYS Department of Health (NYSDOH) designating each phase. Cycling back and forth between less restrictive to more restrictive designations may occur as public health indicators improve or worsen. This means that our school district should account for changing conditions in our Operational Plan to ensure fluid transition from more to less restrictive conditions in each of the phase requirements as needed.

## Timetable

- May 1 – July 1 - District Office Administration develops Operational Plan Template based on guidance from the CDC, Dept. of Health and other State Reopening School Plans.
- July 1- Review Template with Administrative Team
- July 1 – 14 – Administrators develop building specific template plans
- July 9 – Check in Meeting between District and Building Administration, Directors attend as needed– 1 hour meetings
- July 13 – NYSED Guidance Document
- July 15 – Meet with Administrative Team to review NYS Guidance
- July 16-July 28 – Meet with Building Level Teams to draft a specific plan
- July 31 – Plan to be submitted to the State
- August - To Be Determined

## COVID-19 Safety Coordinator and Team

In each school, the Building Principal will be the COVID-19 Safety Coordinator. Teacher and staff leaders will each be assigned defined roles and responsibilities for health and safety preparedness and response planning during the each model of operations. The COVID-19 Safety Coordinator and team will be responsible for facilitating the local planning process, monitoring implementation of the local Operational Plan, and continued monitoring of local health data.

- **Operational Plan Development:** Individuals will play a role in drafting the enclosed Operational Plan;
- **Operational Team:** Individuals will play a role in within-year decision making regarding response efforts in the event of a confirmed positive case or exposure among staff and students; or
- **Both (Plan Development and Operational Team):** Individuals will play a role in drafting the plan and within-year decision making regarding response efforts in the event of confirmed positive case.

## Type of Models of Operations

### Camden Central Schools are preparing for Three Types of Models of Operations

- In Person Learning Model - All students and staff are in person but some students/families may opt for remote learning out of safety/health concern.
- Hybrid Learning Model - A balance of both in-person learning and remote learning for varying students (i.e., based on students who need to be in school to learn or alternating days or weeks).
- Remote Learning Model – Students are learning from home.

**Cleaning, Sanitizing, Disinfecting, and Ventilation**

**Key Questions –**

- How will we ensure the building is cleaned and ready to safely welcome staff and students?
- How will the District ensure disinfection supplies meet OSHA and [CDC requirements for COVID-19](#)?
- How often will you implement cleaning, sanitation, disinfecting, and ventilation protocols/procedures to maintain staff and student safety?
- What protocols will we put in place to clean and disinfect throughout an individual school day?
- Which stakeholders will be trained on cleaning, sanitizing, disinfecting, and ventilation protocols?
- When and how will the training be provided?
- How will we measure our preparedness to implement these cleaning plans?

**Summary of Responses to Key Questions:**

**Social Distancing and Other Safety Protocols**

**Key Questions**

- How will classrooms/learning spaces be organized to maintain social distancing and prevent the spread of illness?
- How will you group students with staff to practice social distancing when possible?

- What safeguards will be taken when social distancing may be difficult or not possible? i.e. secondary school hallways
- How will you utilize outdoor space to help meet social distancing needs?
- What hygiene routines will be implemented throughout the school day?
  
- Which stakeholders will be trained on social distancing and other safety protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?
  
- How will safety drills, fire drills and lock downs, be conducted with modifications ensuring social distancing between persons?

**Student and Staff Health**

**Key Questions**

- How will you communicate with students, staff, and others who interact with each other to ensure they are healthy and not exhibiting signs of illness?
- When and how will families be notified of confirmed staff or student illness or exposure and resulting changes to the local Reopening Plan?
- Both Administration and School Nurses will regularly monitor student and staff health by reviewing local school attendance data, county data and statewide data.

**Other Considerations for Students and Staff**

**Key Questions**

- What is the local policy/procedure regarding face coverings for staff? What is the policy/procedure for students?
- What special protocols will you implement to protect students and staff at higher risk for severe illness?
- How will you ensure enough substitute teachers are prepared to step in when staff becomes ill?
- How will the School District strategically deploy instructional and non-instructional staff to ensure all students have access to quality learning opportunities as well as supports for social emotional wellness at school and at home?

**Professional Development for Health and Safety**

The success of your plan for a healthy and safe reopening requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. For each item that requires professional development, document the following components of your professional learning plan.

- **Topic:** List the content on which the professional development will focus.
- **Audience:** List the stakeholder group(s) who will participate in the professional learning activity.
- **Lead Person and Position:** List the person or organization that will provide the professional learning.
- **Session Format:** List the strategy/format that will be utilized to facilitate participant learning.
- **Materials, Resources, and or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Start Date:** Enter the date on which the first professional learning activity for the topic will be offered.
- **Completion Date:** Enter the date on which the last professional learning activity for the topic will be offered.

## School Culture - SEL

### Key Questions

#### Considerations:

- Equity for ALL staff and students
- Create a welcoming school culture of safety, caring, learning, and high expectations.
- Create conditions in which ALL teachers can focus on teaching and all learning.
- Create conditions in which ALL students can learn and grow by gathering data that identifies the needs of all learners.
- Provide instructional opportunities as needed for all learners to be successful.
- Understand the need for social emotional and mental health support for students and staff.
- Develop a comprehensive communication plan for staff, families, and community.

**Learning & Instruction Professional Development**

The success of your plan for a balanced and instructionally sound reopening requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. For each item that requires professional development, document the following components of our professional learning plan.

- **Topic:** List the content on which the professional development will focus.
- **Audience:** List the stakeholder group(s) who will participate in the professional learning activity.
- **Lead Person and Position:** List the person or organization that will provide the professional learning.
- **Session Format:** List the strategy/format that will be utilized to facilitate participant learning.
- **Materials, Resources, and or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Start Date:** Enter the date on which the first professional learning activity for the topic will be offered.
- **Completion Date:** Enter the date on which the last professional learning activity for the topic will be offered.
